## WORK EXPERIENCE

---

### PacketZoom Inc.

**May 2018 – October 2018**

*Game Programmer and Network Engineering Intern/Contractor*

*San Mateo, CA*

- Built “[PacketBall](#)”, an online multiplayer game in Unity for Android and iOS, to completion as a demonstration of PacketZoom’s networking plugin and protocol.
- Interfaced with networking engineers to enable a game that successfully tests the product.
- Designed and programmed the game from start to finish on both iOS and Android.

### UMG eSports

**March 2017 – September 2017**

*Android Development Contractor*

*Woodstock, GA*

- Built and shipped [UMG Gaming](#), an Android application for eSports Tournaments.
- Designed and implemented Android UI using Android Studio.
- Utilized Android functionality such as the camera and Google Services.

### Marietta High School

**August 2016 – May 2017**

*Volunteer Unity and C# Teacher*

*Marietta, GA*

- Taught high school students about Unity and C# twice a week.
- Followed the courseware and presented it through teaching to the students, leading to eventual certification.

## SKILLS & INTERESTS

---

- **Skills:** [Official Unity Certification](#); C#; Java; C++; Kotlin; Unreal Engine 4; Unity 5+; Android Studio; XCode; Microsoft HoloLens; HTC Vive; REAPER Digital Audio Workstation;
- **Interests:** Game Jams and Hackathons; [singing, playing instruments, music composition](#); traveling; comic books
- Participation in 9 Game Jams (48-hour game development sessions)

## EDUCATION

---

### **Kennesaw State University**
